When the Cat Came Home

Saviour Machine

Sounds in the attic
See inside the show
Watch as you go
Watch as you goTrapped in some place
The entity fadesWatch them crawl on me
Claiming redemption
They're coming to your townThere's nothing inside
There's nothing insideAssassination
When the cat came homeLurking in the doorway
I saw him hang by the power
Covered in scabs
Covered in scabs
Covered in scabsAssassination
When the cat came home
