

When the Cat Came Home

Saviour Machine

Sounds in the attic
See inside the show
Watch as you go
Watch as you go Trapped in some place
The entity fades Watch them crawl on me
Claiming redemption
They're coming to your town There's nothing inside
There's nothing inside Assassination
When the cat came home Lurking in the doorway
I saw him hang by the power
Covered in scabs
Covered in scabs
Covered in scabs Assassination
When the cat came home
