

# Save Me

Muse

Save me from my superstitions  
Now I'm free from this old condition  
Wait just a while  
And I'll greet you with a smile Hold me cause I'm sure I hated  
Promises they are overrated  
Wait just a while  
While I'm drowning in denial Turn me into someone like you  
Find a place that we can go to  
Run away and take me with you  
Don't let go I need your rescue Watch me cause I'm on a mission  
Hold me back so I'm forced to listen  
Don't let me go  
Cos I'm nothing without you Turn me into someone like you  
Find a place that we can go to  
Run away and take me with you  
Don't let go I need your rescue
