Stinky Air

Kolohe Kai

Everybody's talking, and i really don't care

They can just

Keep on keep on talking

I can't hear their stinky airI was on my phone when i heard what you said, yeah

Your Immature words just went over my head

La la la la la la

For me its water under the bridge

So i don't even bother to refrigerate

your words of hate

I gotta tell you that.....Everybody's talking, and i really don't care

They can just

Keep on keep on talking

I can't hear their stinky air

i gotta tell you that

Everybody's talking, and i really don't care

They can just

Keep on keep on talking

I can't hear their stinky airYou're just a face crook and a instant scam

but i don't try to fake it, I'm just who i am

Yeah eee Yeah e e e

But you can hide behind your screen

type of words are so mean

but I'm just going to sing with my heart

while you sit there playing tricks in the darkEverybody's talking, and i really don't care

They can just

Keep on keep on talking

I can't hear their stinky air

i gotta tell you that

Everybody's talking, and i really don't care

They can just

Keep on keep on talking

I can't hear their stinky airnoyou only like to talk when you are online

yeah eee yeah

but i just walk the walk cuz my feet feel fine

i dont talk trash to wifi

cuz im a pretty nice guy

i just like to have fun

while you can wait till im done

but ill never be done

no ill never never never be donei gotta tell you that
Everybody's talking, and i really don't care
They can just
Keep on keep on talking
I can't hear their stinky air
i gotta tell you that
Everybody's talking, and i really don't care
They can just
Keep on keep on talking
I can't hear their stinky air
