

Happy Now

[Amy Studt](#)

Happy now, I wonder are you happy now?
Now that you've had me and I'm on my own
All alone, are you happy now? I recall the way you always looked at me
You chose those words effectively
To work your way inside of me I had so much to give
But you didn't have to take it all
The pain I'm left with, I'm wondering
Are you happy, now? Are you happy now? Happy now, I wonder are you still happy now?
Now that I've left you and you're on your own
All alone, are you happy now? What goes around comes around
What goes up must come down
Down, down, down Why did it take me so long to
See you make me so unhappy
Now I know, now I know Happy now, guess you could say I'm happy now
We'll meet again someday, somehow but until then
Look, who's happy? Look who's happy, now?
Look, who's happy, now?
'Cause you could make him happy now
