Suck my mouth, suck my pain away Suck my mouth, suck my pain away Helplessness, I am hard to stain Potentially inappropriate I am naked before you Look at me You came for me, I pray to you You are in me You are my religion, you are my religion I'm loving you, you're loving me Brutal truth, it is profound Can you hear the sound of my breath? Suck my mouth, suck my pain away Suck my mouth, suck my pain away Inhale me, inhale all my life Confronting love on the other side I am naked before you Look at me You came for me, I pray to you You are in me You are my religion, you are my religion I'm loving you, you're loving me You are my religion, you are my religion I'm touching you, you're touching me Intoxicated with your breath My eyes close, I am a mess Starving and cold and I need your love You keep me real, you lift me up Prayer soft, I am in love Devotee of your immortal love Brutal truth, it is profound Can you hear the sound of my breath? You are my religion, you are my religion I'm loving you, you're loving me You are my religion, you are my religion I'm touching you, you're touching me You are my religion, you are my religion I'm loving you, you're loving me You are my religion, you are my religion Lyrics provided by <u>https://damnlyrics.com/</u>
