

Jungle

Tash Sultana

[Verse One]

I see the way you move

It's fluid

Be here by my side

Got nothing to hide I know that you're hurting

I see the tears behind those eyes

And I can't wipe them clear

Your love is like gold to me

But you hold me closer to the light

You will not find a bullet inside

Unless you magnify But you throw me into the deep end

Expect me to know how to swim

And I put my faith in someone else

Cause I will be just fine [Chorus]

Welcome to the jungle

Are you gonna dance with me

Welcome to the jungle

You got to close your eyes and see

Welcome to the jungle

Are you gonna dance with me

Well hold on

Well hold on [Alternate Verse]

Suit and tie with the black jeans on

And I'm paralyzed

Cos' I think you got something like the biggest soul I've ever seen

And I think you're the one Suit and tie, with the curly hair

Making your way with that step and stare

So tell me real, do you feel anything [Verse]

Ashes to ashes

And the embers are ablaze

Oh, I gotta rise amongst you, though

Then I think about your face every day But you pull me closer to the light

You wouldn't find a bullet inside

Only if you magnify [Chorus]

Welcome to the jungle

Are you gonna dance with me

Welcome to the jungle

You got to close your eyes and see

Welcome to the jungle

Are you gonna dance with me

Well hold on

Well hold on[Guitar Outro]
