

# Step to Me

## Thousand Foot Krutch

Advisory - the following lyrics contain explicit language:

I've been as far as you can go  
I've learned a lot and now I know  
You're never gonna get me on the floor again I'm prepared to take you to the end  
Never gonna play your games again  
Bring your whole team and all your friends  
But I hope your listenin' Haunt me, if you want me  
But I'll warn you  
If you ever step to me I sometimes wish that I could fly  
Hold me tight in your arms tonight  
Sick of livin' inside a lie, alright I can't count the times I've tried  
Stand alone just to lift you high  
You're my answer to the question why, why I'm sick of letting you control  
The places that I go  
I'm never giving into you again Take, take another look at me  
And tell me what you see  
All of these cats tryin' to get under my skin  
But they can't step over me You try to control me  
But you can't hold me  
You don't own me  
If you ever step to me I sometimes wish that I could fly  
Hold me tight in your arms tonight  
Sick of livin' inside a lie, alright I can't count the times I've tried  
Stand alone just to lift you high  
You're my answer to the question why, why I know it's not me  
Take a look inside me  
I'm sick of these ways  
So sick of these games  
Couldn't see it till I multiplied you Call me a freak  
But I don't hear the words you speak  
I'm takin' control  
Just lettin' you know  
That I won't get sucked in by you I sometimes wish that I could fly

Hold me tight in your arms tonight  
Sick of livin' inside a lie, alright I can't count the times I've tried  
Stand alone just to lift you high  
You're my answer to the question why, why Haunt me, if you want me  
But I'll warn you  
If you ever step to me Again, you try to control me  
But you can't hold me  
You don't own me  
If you ever step to me
