

Rem

Cervello

close my eyes and i get that feeling
when you smiled and it all had meaning
all alone i'm driving on the endless road

lost my soul my will of trying
see right through your eyes they're lying
falling from the stairs you made to reach up high

is this going to heaven, can someone help me
is this a nightmare can someone help

is this going to heaven, can someone help me
is this a nightmare can someone help

every time a see you leaving,
taking pieces of my feelings
carry them away to a safer place

lost my soul my will of breathing
can't you see my eyes are bleeding
blinded by the game you played behind my back
