

Gas And A Dollar Laugh

Velvet Revolver

They lost imagination
Designer institution
The...revolution
Don't see no resolution
They got their arms around hers
We got our arms around it
They barely got each other
Dance
Dance
Dance little hooker shake it
Dance, or you will be branded
You're the one that is so mistaken
You're a gas and a dollar laugh
You're a gas and a dollar laugh

She's alright
It's automatic tonight
Yeah it's alright
Self exposed hunger strike
Just hold tight you'll see the sun and you'll feel alive
She's alright
Lost in a world she holds tonight
Dance
Dance little hooker shake it
Dance, or you will be banded
You're the one that is so mistaken
You're a gas and a dollar laugh
You're a gas and a dollar laugh
