Nobody Cares

White Arrows

Try a little harder
Time is going slower
Life is getting shorter
Nobody knows your nameBlood is getting thinner
Work a little faster
Look a little stronger
Nobody knows your nameNobody cares
Nobody even cares
Nobody even caresSmoke is getting thicker
Climb a little faster
Last a little longer
Nobody knows your nameScream a little louder
Horrors coming quicker
Breathe a little harder
Nobody knows your nameNobody cares
Nobody fucking cares
Nobody even caresToo strong that you never forget
No no I will never forget or forgive myself
Oh no I will never forgive
Oh no I will never become myselfNobody cares
Nobody cares
Nobody caresOh no I will never forget
I don't know how I lost againOh no I will never become
Oh no I will never become myself
Oh no I will never become
Oh no I will never become myself
Oh no I will never become
Oh no I will never become myself
Oh no I will never become
Oh no I will never become myself
Oh no I will never become
Oh no I will never become myself
