

# Liar

## Madcon

You the first thing I would choose  
But the last thing I need  
Girl I'm stuck on you  
So it's so hard to set me free  
You the first thing I would choose  
But the last thing I need  
You a liar, liar It was the love, pain, sweat, ties  
That made me stick  
When I was sick of the lies  
The years, tears, smiles, fights  
And now that I left you  
I cry through the night You was quick to slip  
The slicker slice  
I was surprised how you kept your calm And every time you admit deceit  
We'd hit the sheets  
I started livin' on the bedroom floor  
Probably you's a liar  
Yeah, tryin' to call the car  
Try to leave anytime  
But a false alarm  
Because you the one that did me wrong  
Girl you a liar! Like the beat don't stop  
First let it slide, before I cut in  
And suddenly the beat goin' stomp You the first thing I would choose  
But the last thing I need  
Girl I'm stuck on you  
So it's so hard to set me free  
You the first thing I would choose  
But the last thing I need  
You a liar, liar (I just wanted the truth)  
I said she lied to me  
Can't believe a word she cries  
Cuz she lied to me  
No need to work things up  
Cuz she's a dyer, a pretty bad liar  
But she's hot too  
Making it hard to move that sexy scene  
Cuz it's not true First I thought I  
Never knew a love like this

And this wasn't a first half order?  
First I caught her  
Givin' it a hooch?  
In truth, this love worse  
Than my first time order.?  
Be real, bet ya man don't lie  
That promise'll give the candle fry?  
What they say 'bout a man don't cry  
Cuz I know it's not love proper  
I'm gonna die You the first thing I would choose  
But the last thing I need  
Girl I'm stuck on you  
So it's so hard to set me free  
You the first thing I would choose  
But the last thing I need  
You a liar, liar I said she lied to me  
Can't believe a word she cries  
Cuz she lied to me  
No need to work things up  
Cuz she's a dyer, a pretty bad liar  
But she's hot too  
Making it hard to move that sexy scene  
Cuz it's not true.  
She seemed to be the truth  
(Seemed to be the truth)  
I bet she cheated on me too  
(Cheated on me too)  
She really got me good  
(Really got me good) I said she really got me good  
(Really got me good)  
Hey you the first thing I would choose  
But the last thing I need  
Girl I'm stuck on you  
So it's so hard to set me free  
You the first thing I would choose  
But the last thing I need  
You a liar, liar You the first thing I would choose  
But the last thing I need  
Girl I'm stuck on you  
So it's so hard to set me free  
You the first thing I would choose  
But the last thing I need  
Cuz you a liar, liar.  
(First thing I'd choose  
Last thing I need)

Liar, liar, liar  
(First thing I'd choose  
Last thing I need)  
Liar, liar, liar, liar
