

Be Mine (feat. Paolo Serra)

Pow-Lean

I barely could face her slick sight
That i felt like i was getting high
The distance between me and her eyes
Makes me feel that one day she's gonna
be mine...babe be mine.I've had her first time met one day
She was serving at that roadside bar
Me and my friend we were staring this girl
Walking straight to the top, so baby
Don't stop no, baby don't stop.Solo
I've barely could face her slick sight
That i felt like i was getting high
The distance between me and her eyes
Makes me feel that one day she has to
be mine...babe be mine.
