

# The Trooth

## Reggie and the Full Effect

Today is the day I'm ripping you out  
The pain you've given is worth 175  
Leave me so I can have some sanity Get away from me  
Im keeping a piece of you in a jar  
So I can point and laugh at you  
From now till forever You suck and it's time you left  
I am tired of taking care of you  
You never seemed to notice any ways  
So pulling out your roots  
Go ruin someone elses life
