

Tea, Milk and Honey

Oh Pep!

Take time, take all the time you need
Take time or you won't succeed
Worry 'bout your health sometimes
Take time, take all the time you need
Take time or you won't succeed
I take time and I worry about your health sometimes
Don't ever run when you can walk
Heard you were yelling before you could talk
Thinking twice will lead you into a bad place
You gotta move fast to win
No space for time, no time for space
I ain't got what the human race need, no
I won't contribute to your polluted transaction
I got places to be that ain't right here
If you stick with me, I'll make sure your time is alright
If you don't understand where I am now
It's better if we leave it
Oh, why, why don't you just walk to the hill with everyone, we go now
Why don't you come?
I've been thinking about it
I've been worrying about it
Don't you get it, I've been fretting
I talk about it with my best friend
She says it's your loss
You don't know what you got
I know that you do and that's what scares you
Why don't you forget about it?
Go on, somehow we won't ever talk about it no more
Don't you get it, I've been fretting
I talk about it with my best friend
My baby talks at a mile a minute
She sings like a church with a choir in it
She shoots for the moon to land on the stars
And wakes up heavy with a sunken heart
Thinking twice will lead you into a bad place
You've gotta move fast to win
No space for time, no time for space
I ain't got what the human race need
My baby runs ten miles to win it
She moves like her body's got a fire in it
She makes me swoon when she walks in the room
She wakes up early and she leaves too soon
My baby talks at a mile a minute
She sings like a church with a choir in it
She shoots for the moon to land on the stars

And wakes up heavy with a sunken heart
She don't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me

She won't read the news on the TV

Tea, milk, and honey never satisfy me
Just breathe, no need to leave

I swear it was all in the plan

If you don't understand where I am now

It's better if we leave it
