# Upper Hand

## Blindsighted

Honey on a teaspoon, sugar in a bowl
An eager man's always an easy catch
Butter on the skillet, whiskey in a glass
To start a flame you've gotta light a match
You know what he wants, you know what he wants
Gotta get a hold, gotta get a hold
Get a hold of your man
Better get him while, better get him while
Better get him while you can
Good to be a lion, good to be a lion instead of a lamb
Use what you got, take the upper hand
Always be a lady but tease him like a tramp
A temptation that's hard to resist
Treat him like a hero, let him long to be your slave
Take advantage of your God given gift
You got what he wants, yeah, you got what he wants

Gotta get a hold, gotta get a hold
Get a hold of your man
Better get him while, better get him while
Better get him while you can
Good to be a lion, good to be a lion instead of a lamb
Use what you got, take the upper hand
Generations before will testify it's true
You gonna see how much he really loves you
Gotta get a hold, gotta get a hold
Get a hold of your man
Better get him while, better get him while
Better get him while you can
Good to be a lion, good to be a lion instead of a lamb
Use what you got, take the upper hand
Use what you got, upper hand
Use what you got, take the upper hand
