Hands Up

Semi Precious Weapons

Down, down, down
Never bring us down
Down, down
Don't bring me downThere's only some many bowls to break
Until you're asleep wide awake
While everyone else just waits for youThere's only some many ways to go
There's only some many scars to show
Until you believe, don't know way to.Down, down, down
Never bring us down (x3)
Down, down
Don't bring me downHands up, motherfucker! (x3)
Hands up, hands up!There's never too many times to try
There's never too many sins to fight
So come on and live your life for youThere's never too much love to chase
There's never not room for mistakes
If you wanna swim, make it rain for youDown, down, down
Never bring us down (x3)
Down, down
Don't bring me downHands up, motherfucker! (x3)
Hands up, hands up!There's never too much love to chase
There's never not room for mistakes
If you wanna swim, make it rain for youDown, down, down
Never bring us down (x3)
Down, down
Don't bring me downHands up, motherfucker! (x3)
Hands up, hands up!
