

# Possessed

## Suicidal Tendencies

When I go down the street  
The people watch me shiver and shake  
I think my head's about to break  
I'm a prisoner of a demon  
it stays with me wherever I go  
This must be punishment  
I can't break away from its hold  
For selling my soul

CHORUS  
Too much pressure my pulse is rising  
My heart is pounding my head really hurts  
>From all these things inside of me  
I can't take it all this pressure  
Everywhere I look I see them  
Everywhere I go they're at  
What did I do to deserve this  
Why won't they just leave my body  
Are they people or are they spirits  
Do they belong to the human race  
Why do they want me so bad  
I can't see them but I know they're here  
Why won't they come out of their hiding place  
I can feel it in my veins  
Is causing all my strength to drain  
All this pressure on my body

CHORUS  
Am I crazy or am I insane  
Is it real or is it fake  
Or have I already lost my mind  
Or am I in a permanent bind  
Am I in power or am I a slave  
Do I still have a soul  
Who in the hell is in control  
Am I still living or am I dead  
I know I can't keep going this way  
I have to give my mind some leisure  
If I keep on going like this  
I will have to disband  
I never again will taste pleasure  
I have lost all control  
If they will not break the oath  
Possessed  
This thing has now taken command
