

L'age D'or

Of Montreal

I saw her in the strangulation room
She said "Do you think your venom is strong
Enough to really work on me?"
I think she just wants me on the temporary
She said you're fitness but is it just a paper love?
And I kept you in my kiss almanac
Ever since you dropped your stage name

Re-emerged as Viper Fragment
I've liked you so much more
I've noticed things about you I never had before
Now I want you on the kitchen table, public bathroom
On the dirty floor
Shit, they're knocking down the door
But I'm inside your core

I know she's kind of fug
She's just my party drug
I ain't all that fly my damn self
I know she's kind of fug
She's just my party drug
She's just my party
Young pussy is the star
How slick you are

I gotta get my bust
Before this planet turns to dust
I mean she's the only flight that I'm really on
I know she's kind of fug
She's just my party drug, she's just my party
At least for tonight

I know you were scared cause I was your first secular lover
But didn't it feel like we kind of healed each other
We played deprivation games I let you load the cartridge
You were in your spring, you hungered for everything
But was I just a symbol?
Something for you to escape to?

All the things I made you do they'll return to haunt you.

But come on, let's not pout
It was just an adventure
At least I taught you how to stop living like such a mouse
I know she's kind of fug she's just my party drug
I ain't all that fly my damn self

I know she's kind of fug
She's just my party drug
She's just my party
I've got to get my bust
Before this planet turns to dust
I know she's kind of fug
She's just my party
At least for tonight
