

# Sensitivity

## Micachu

I don't even know the real me anymore  
I can't even show how I feel  
I hit the floor  
I'm talking rock bottom  
My feelings I fought em  
I can't believe it's come to this  
'Cause I need to a grip on reality  
Now i wanna feel some sensitivity  
I'm here, i'm telling you i  
Cleared my life  
I changed my head  
Trying to catch my skin again  
I'm finding out what makes me wanna live  
By living it up again  
It's my world  
I paved my way  
Found my sensitivity  
I stepped back from the edge  
Now i'm living it up again  
I've been doing fine in my misery  
Not crazy  
I told them not to worry about me  
But everytime i wanna feel some sensitivity  
I'm here, i'm telling you i  
Cleared my life  
I changed my head  
  
Trying to catch my skin again  
I'm finding out what makes me wanna live  
By living it up again  
It's my world  
I paved my way  
Found my sensitivity  
I stepped back from the edge  
Now I'm living it up again  
Living it up again  
Living it up again  
Living it up now i'm not crazy i'm just sensitive  
I stepped back from the edge

I cleared my life  
I changed my head  
Trying to catch my skin again  
I'm finding out what makes me wanna live  
By living it up again  
It's my world  
I paved my way  
Found my sensitivity  
I stepped back from the edge  
Now I'm living it up again  
Living it up again  
I'm living it up again  
Living it up now i'm not crazy i'm just sensitive  
Living it up again  
I'm living it up again  
Living it up now i'm not crazy i'm just sensitive
