Top It All

JRDN

Am I sleeping or dreaming,
It's late at night and I'm on the road. (yeah)
Already on this journey,
I know the stars will guide me through.
I'll write a letter about it,
To share with you all the things,
I'm doing each and everyday.
I know we saved the time
To have a moment with you,
I promised that will never change.Cus you paved the way
You helped me grown
I'm a better person
Cus you I know.
You made me change when I needed to
And now I'm gonna give it up and put it to youSo you can call me
Baby boy
Cutie pie
How am I to touch the sky,
It's all because of you.
I learned my lessons well
Up and down
You can see I'm fly as hell
I want to show and prove to you.
That, I'm ready yea yea
I'm ready yea yea
I'm ready to start it all
To see I'm ready yea yea
I'm ready yea yea
I'm ready to top it all
To top it all, all (x4)I'm on my way to the next show,
I hear your call but I can't pick up. (yeah)
I hope you don't take it personal
Kind of busy,
Hope you know whats up.
I have some lonely feelings
Wish you were here to held me
When I think I'm losing it all.
Then I hear you voice
Remember what you told me;

To get up
Get up
When you fallSo you can call me
Baby boy
Cutie pie
How am I to touch the sky,
It's all because of you.
I learned my lessons well
Up and down
You can see I'm fly as hell
I want to show and prove to you.
That, I'm ready yea yea
I'm ready yea yea
I'm ready to start it all
To see I'm ready yea yea
I'm ready yea yea
I'm ready to top it all
To top it all, all (x4)Wow see whatever it is,
That keeps me going
I took it all from you.
And I can never forget it,
Cus this much is true.
When they look at me
They see you
