

When Truth Lies

Vanishing Point

Still is the sun that burns in my eyes
Ever flowing, never changing
Light takes me underFree now I feel, no more am I the burden to you
Take in what's real, I've drawn the line
I won't go back no moreWhat were you fighting for?Polarized we are existing, in two different worlds
Where do we go from here?
I need to know
Dead inside and isolated, living in reverse
Where do we go from here?
I need to know
Dare to dream, dare to see, your vapid path is falling
Forever's a lie, why deny, open your eyes to what is realInside I walked through
The fire in you
When truth dies
It lies within youWhat were you fighting for?
Who were you fighting for?
Polarized we are existing, in two different worlds
Where do we go from here?
I need to know
Dead inside and isolated, living in reverse
Where do we go from here?
I need to know
