

I Celebrate (feat. Assent Tweed)

Sinach

come on,instrumentalThere is nobody like our God
creator of the universe
Our God is greathe knew my name before i was born
he knows the begining from the end
Our God he knowsif he can take care of the lillies and the birds of the sky
clothe and beautify the grasses of the field
He has provided
He will supply
I celebrate and i sing
His love endurs forever
I celebrate and i sing
His love endures forever
Amazing God.He created us out of the clay
fed five thousand out of the food
our God is great
He that was dead he called back to life
Spoke peace to the raging storm
Our God he knowsbridge and chorusHe's amazing 4
big God to the greater one
the master of the universe
the strong and the breasted onethere are no (no idea what they said)Repeat chorus...
