# When Somebody Loves You

## Restless Heart

When somebody loves you
The whole world just disappears
You don't have to hid the pain
You don't have to count the tearsThere is a reason
For everything you do
When somebody loves you
When somebody loves youWhen somebody needs you
More than you need yourself
If you get that feelin'
You don't need nothin' elseAnd if I could hold you
I know you'd feel it too
When somebody needs you
When somebody needs youI hope that I have a real good chance
I wanna be there when you fall in loveWhen somebody wants you
You can see it in their eyes
So how can you look at me
And not even realizeBaby, there's nothing
My poor heart wouldn't do
Somebody loves you, baby
Somebody loves youAnd if I could hold you
I know you'd feel it too
Somebody loves you, baby
Somebody loves you
