

Fool for Your Love

Neil Young

All through the lonesome night I tossed and I turned
Lost in these dreams of you since the day I learned
How could you give yourself to another man
A fool for your love, fool for your love.
Fool for your love. Look how your eyes have changed, all the love has gone
Where did I lose you babe, what did I do wrong
How could you give yourself to another man
I'm a fool for your love, fool for your love.
Fool for your love. Now you won't say goodbye,
But you don't want to stay
I never thought that I
Would lose you this way. A fool for your love. All through the lonesome night I tossed and I turned
Lost in these dreams of you since the day I learned
How could you give yourself to another man
A fool for your love, fool for your love. Fool for your love.
A fool for your love, I hold on your love.
I'm just a fool in love with you. I'm a fool, fool for your love
I'm just a fool for your love
I'm a fool for you.
