## **Jealous**

## Nina

Jealous of the girl who caught your eye One of my darker days When you looked at her where was I? Shoulda been in her place, here I am All alone imagining what might have been, could have been If I had been thereJealous of the one whose arms are around you If she's keeping you satisfied Jealous of the one who finally found you Made your sun and your stars collideLa la la la la la la She's a very, very lucky girl La la la la la la laJealous of the one who won your heart They say it's a perfect match She's gonna get to be where you are And I don't get better than that She'll say you're fine Whisper words I wish were mine And they might have been If I had been thereJealous of the one whose arms are around you If she's keeping you satisfied Jealous of the one who finally found you Made your sun and your stars collideLa la la la la la la She's a very, very lucky girl La la la la la la laYou know I'd fight the good fight If I thought I'd change your mind But if she makes you happy I would leave that dream behindMan, she better treat you right And give you everything 'Cause at the moment she doesn't I'll be waiting in the wingsJealous of the one whose arms are around you If she's keeping you satisfied Jealous of the one who finally found you Made your sun and your stars collideLa la la la la la la She's a very, very lucky girl La la
