# Spin Me

## Stellar Road

look in the mirror love start to think
do you think i am everything?
do i exceed anything
your hopes and dreams
good lord do i see anything

love i want to feel that feeling
oh tie tie me up and tease me
in this good life we always say it`s ok
love i`m burning please spin me away

look in the mirror love take your drink
your reflection bares everything
your scars continuous continuing
i bring this healing
do i see anything

these circles we`re spinning
oh tie me up
this dizzy head`s been burning
please love just spin me away

but the mirror has two faces
staring back at you in traces
oh lord wake up and see
why this little feeling is killing me
