

# Delirious

Matt Johnson

Seems to me like the days are getting longer  
For everyone there's no fun when there's no time to sleep

Working on and on for a day in the sun

Counting down the days till it stops

Can you hear us, watch the sun on my skin?

And the world that I'm in makes me delirious

Can you hear us with a smile on my face?

On a far different place I'm delirious

Can you hear us, watch the sun on my skin?

And the world that I'm in makes me delirious

Can you hear us with a smile on my face?

On a far different place I'm delirious

Take me away, make me a holiday

Delirious

Take me away, make me a holiday

Delirious

Under the sun I feel I'm getting stronger

Time to rewind my mind, recharge my batteries

'Cause it takes so long and too soon it's gone

Holding back the days to my reality

Take me away, make me a holiday

Take me away, make me a holiday

Delirious

Can you hear us, watch the sun on my skin?

And the world that I'm in makes me delirious

Can you hear us with a smile on my face?

On a far different place I'm delirious

Can you hear us, watch the sun on my skin?

And the world that I'm in makes me delirious

Can you hear us with a smile on my face?

On a far different place I'm delirious

Take me away, make me a holiday

Delirious

Take me away, make me a holiday

Delirious

Can you hear us, watch the sun on my skin?

And the world that I'm in makes me delirious

Can you hear us with a smile on my face?

On a far different place I'm delirious  
Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious
