

Heart And Soul

Joy Division

 Instants that can still betray us
 A journey that leads to the sun
 Soulless and bent on destruction
 Struggle between right and wrong
You take my place in the show-down
 I'll observe with a pitiful eye
 And humbly ask for forgiveness
 A request well beyond you and I
 Heart and soul, one will burn
 Heart and soul, one will burn
 An abyss that lasted creation
 A circus, complete with all fools
 Foundations that lasted the ages
 Then ripped apart at their roots
 Beyond all this good the terror
 The grip of a mercenary hand
When savagery returns for good reason
There's no turning back the last stand
 Heart and soul, one will burn
 Heart and soul, one will burn
Existence, well, what does it matter
 I exist on the best terms I can
The past is now part of my future
 The present is well out of hand
 The present is well out of hand
 Heart and soul, one will burn
 Heart and soul, one will burn
 One will burn, one will burn
 Heart and soul, one will burn
