Make You Say

Bobby Valentino

She's the type of girl that will make you say
Every time I see, she makes me say
She's the type of girl that will make you say
Every time I see, she makes me say
Every time I see, she makes me sayStop for a second, let me tell you something
Say, girl, you're sexy, you've got it going on
I wanna take you out, do some things that you never did
Spoil you rotten like your mama did
Damn, I am fallin'Got me always thinking about you
Sometime I'd be dreaming about you
And girl, I know I'm the right man for youLet me do it like this, let me do it like that
I can do it anyway you want it
Take you around my ma, take you around my daddy, girl
That's why I'm the only oneShe's the type of girl that will make you say
Every time I see, she makes me say
She's the type of girl that will make you say
Every time I see, she makes me say
Every time I see, she makes me sayEven though we just met, I feel somethin'
That sparkle in your eye when I move you in
I know I'm movin' fast but time no stand still
Let me know what the deal, look at me I'm thrilledGot me always thinking 'bout you
Sometime I'd be dreaming 'bout you
Don't be blowin' me up, girl, you're so coolLet me do it like this, let me do it like that
I can do it anyway you want it
Take you around my ma, take you around my daddy, girl
That's why I'm the only oneShe's the type of girl that will make you say
Every time I see, she makes me say
She's the type of girl that will make you say
Every time I see, she makes me say
Every time I see, she makes me sayShe's the type of girl that will make you say
Every time I see, she makes me say
She's the type of girl that will make you say
Every time I see, she makes me say
Every time I see, she makes me sayI see you, I see you, girl, I see you, I see you, girl
I see you, I see you, girl, I see you, I see you, girl
You go, you go, girl, you go, you go, girl
You do it, you do it, girl, you do itShe's the type of girl that will make you say
Every time I see, she makes me say
She's the type of girl that will make you say

Every time I see, she makes me say
Every time I see, she makes me sayI see you, I see you, girl, I see you, I see you, girl
I see you, I see you, girl, I see you, I see you, girl
You go, you go, girl, you go, you go, girl
You do it, you do it, girl, you do it, you do it, girlYour walk, your walk, girl
Your walk, your walk, girl
Your talk, your talk, girl
Your talk, your talk, girlYour smile, your smile, girl
Your smile, your smile, girl
You do it, you do it, girl
You do it, you do it, girlEvery time I see, she makes me say
She's the type of girl that will make you say
Every time I see, she makes me say
Every time I see, she makes me say
