Warsaw Ghetto

Nitzer Ebb

Well, who's missing the years?
Crying catastrophe
Escaping of freedom
Freedom from 'foreTo turn myth into power
Limit to murder
On with the black wolf
On with the black wolfStruggling for murder
Murder from voice such
Revenge and freedom
Living a heartbreakCrying for silence
That voice of destruction
Comfort develops
Comfort developsYou knew all along
And you knew all along
You knew all along
You knew all along
You knew all alongPrejudice the nation
Your two faces turn
Stop, stop the blood
Stop, stop the bloodstainNo sin against blood
No sin against blood
No sin against blood
No sin against bloodJust the ritual murder
Rehearse in destruction
Push the silent friends
These brutal friendships lastThey rule and rule
And they last and last
They rule and rule
And they last and lastYou gave us no time
Gave us no time
Gave us no time
Gave us no timeBut we can fake real hate
Fake, fake real hate
Fake, fake real hate
Fake, fake real hateTracking the wolf
Track, tracking the tyranny
Track, tracking the wolf
Track, tracking the tyrannyTrack, tracking wolf
Track tyranny

Track, tracking wolf
Track tyranny
Track, tracking wolf
Track tyrannyWon't reach the final state
No final state, no final state
You won't reach the final state
No final stateAnd they'll be missing the years
Miss, missing the years
