

# I Am

## Mya

I am stronger than before  
I have risen from a fall  
I will break down anything in my way  
Without looking back at all  
I am stronger than before  
Not a thing can hold me down  
I will make it, I will take it  
I will always be around  
There is a thing that I got something  
I never had before  
There is a reason I've got to be everything  
I am I'm sure  
I have been weakened by you  
For one hundred days too long  
I have been broken in two  
But I've never felt so strong  
There is a power inside me  
It's pushing now and it's not letting go  
There is a feeling inside me  
I'm not slowing down and it won't let me stop  
Making me more than I am  
Holding you where you are  
And I'm reaching the top  
Ain't nothing that you can do  
'Cause I'm already there  
And I'm not going to drop  
I am stronger than before  
I have risen from a fall  
I will break down anything in my way  
Without looking back at all  
I am stronger than before  
Not a thing can hold me down  
I will make it, I will take it  
I will always be around  
I won't be broken no more  
Because I'm everything I'm meant to be  
It doesn't matter before  
I'm changing everything 'bout me  
Now I believe in myself

Not a thing can touch me now  
No interest in anyone else  
I'm all about making myself proud  
There is a power inside me  
It's pushing now and it's not letting go  
There is a feeling inside me  
I'm not slowing down and it won't let me stop  
Making me more than I am  
Holding you where you are  
And I'm reaching the top  
Ain't nothing that you can do  
'Cause I'm already there  
And I'm not going to drop  
I am stronger than before  
I have risen from a fall  
I will break down anything in my way  
Without looking back at all  
I am stronger than before  
Not a thing can hold me down  
I will make it, I will take it  
I will always be around  
I'm not gonna drop  
I'm not gonna drop  
I'm not gonna stop  
I'm not gonna drop
