

Tired

Willa Ford

You want the truth?
Here it is Manufactured is this hot pop industry
I know 'cause they tried to do it to me
Don't let them take away your eyes
Be who you are and stop the sweet talkin' lies And you're never gonna see me lip sync
And you're never gonna see me try to change
'Cause I'm not the one who won't break it down
Follow me and you'll see that I'm gonna blow the roof off of this town Tired of the blondes that look like me
Tired of you people saying, "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines I'm tired of the crap I take each day
Tryin' to sing my songs, tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines Tired of the pop Shame, it's the game you play for fame
But give it some time you won't remember their names
So you will, so you won't
It's those one-hit wonder melodies who cannot sing a note And you're never gonna see me lip sync
And you're never gonna see me try to change
'Cause I'm not the one who won't break it down
Follow me and you'll see that I'm gonna blow the roof off of this town Tired of the blondes that look like me
Tired of you people saying, "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines I'm tired of the crap I take each day
Tryin' to sing my songs, tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines Tired of the blondes that look like me
Tired of you people saying, "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines I'm tired of the crap I take each day
Tryin' to sing my songs, tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines Yeah yeah yeah
Yeah yeah yeah
Yeah yeah yeah Tired of the pop, tired of the pop
Tired of the pop, tired of the pop It's the same old thang
Over and over And you're never gonna see me lip sync
And you're never gonna see me change
'Cause I'm the one who breaks it down
Follow me, you will see that I'm gonna blow the roof off this town Tired of the blondes that look like me

Tired of you people saying, "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines I'm tired of the crap I take each day
Tryin' to sing my songs, tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines Tired of the blondes that look like me
Tired of you people saying, "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines I'm tired of the crap I take each day
Tryin' to sing my songs, tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines, yeah
