

# Crash

Shayne Ward

[Verse 1]

It was a night like this  
Under the stars one kiss  
And I totally knew you were the one  
And I had no reservation no...  
That day is still on my mind  
I play it over and rewind  
But I never get why you never fell  
The same way that I did

[Chorus]

I wish you could've crash into me  
No turning back totally  
Lost in a rush the way that I was  
Totally lost in you  
Why couldn't you crash into me  
Why can't you look past on the things  
Holding you back the way that I have  
Been doing the same for you  
Why can't you crash into me

[Verse 2]

One look is all that I needed to know  
That you are for me and I didn't need  
No more confirmation oh...So why do you ask so many questions  
I don't understand what makes you keep holding back  
If you just let our worlds collide you'll feel so much better

[Repeat Chorus]

[Bridge]

Why you so afraid of letting go  
It's like some things gotta go  
Instead its going down the road  
Why don't you crash into me  
No turning back totally  
Lost in a rush the way that I was  
Totally lost in you  
Why couldn't you crash in me  
Why can't you look past on the things  
Holding you back the way that I have  
Been doing the same for you  
Why won't you crash into me (3x)

Why won't you crash woh oh  
Why won't you crash into me  
No turning back oh  
Why won't you crash oh  
Why won't you..
