Crash

Shayne Ward

[Verse 1]

It was a night like this Under the stars one kiss

And I totally knew you were the one

And I had no reservation no...

That day is still on my mind

I play it over and rewind

But I never get why you never fell

The same way that I did

[Chorus]

I wish you could've crash into me

No turning back totally

Lost in a rush the way that I was

Totally lost in you

Why couldn't you crash into me

Why can't you look past on the things

Holding you back the way that I have

Been doing the same for you

Why can't you crash into me

[Verse 2]

One look is all that I needed to know

That you are for me and I didn't need

No more confirmation oh...So why do you ask so many questions I don't understand what makes you keep holding back If you just let our worlds collide you'll feel so much better

[Repeat Chorus]

[Bridge]

Why you so afraid of letting go

It's like some things gotta go

Instead its going down the road

Why don't you crash into me

No turning back totally

Lost in a rush the way that I was

Totally lost in you

Why couldn't you crash in me

Why can't you look past on the things

Holding you back the way that I have

Been doing the same for you

Why won't you crash into me (3x)

Why won't you crash woh oh
Why won't you crash into me
No turning back oh
Why won't you crash oh
Why won't you..
