

# How Long

## Dream

There's a place in my heart that I go when I dream  
A place that nobody can see  
Every night I see love, I see someone who's waiting  
Waiting for someone like me He must be out there, somewhere  
Someone for me Tell me how long, till I'm not just dreamin'  
How long, till somebody cares  
How long, till I meet an angel  
And give him my heart, when can I start  
How long, till I fall in love I sit every night by my window just wishing  
And searching for one perfect star  
Can anyone hear me? [Incomprehensible] if you're listening  
Please send him right here to my arms He must be out there, somewhere waiting for me  
Tell me just how long, will it be Tell me how long, till I'm not just dreamin'  
How long, till somebody cares  
How long, till I meet an angel  
And give him my heart, when can I start  
How long, till I fall in love I've always believed that my dreams would come true  
That one of these nights, he'd appear  
He'd be here in my arms  
I see it all, so clearly how it could be  
I wish he was kissing me now Tell me how long, till I'm not just dreaming  
How long, till somebody cares  
How long, till I meet an angel  
And give him my heart when can I start  
How long, till I fall in love, in love How long, till I fall in love  
How long, till I fall in love  
How long, till I fall in love
