

# Thru These Eyes

## Spread Eagle

Thru these eyes and thru the years  
Love's passed by and left me here  
    You're so far away  
And time's brought on a change  
Thru these eyes that never see  
    Photographs of you and me  
    A perfect picture  
    Of what could never be

Chorus

    God in Heaven  
Don't waste your time or tears on me  
    Cause I'm too far gone  
    I don't need sympathy  
    God in Heaven  
I'll tell you why I've grown so cold  
It's the things that I've seen thru these eyes

    This cold world turns again  
    I drown myself in sin  
    Sinking deeper now  
    The lights they grow so dim

    Thru These Eyes all is black  
    And it's too late for turning back  
    I'll be leaving soon  
And time won't heal these wounds

Chorus

    Tell me why, tell me why  
I've been ripped apart and left here to die  
    Crimes of love, Crimes of hate  
    It's not too late if you  
    Take a look around you  
    There's got to be an answer  
    I ain't playin' your fool  
    So give me what I'm after

When all I see is pain in a world full of lies

I wish that I could never see a damn thing  
thru these eyes

Chorus
