Funky Sensation

Gwen McCrae

I'm calling all you party people
Come on get up and dig that funk that I have for you
You see people like me need people like you
To come together and enjoy the funky beatTake your time relax your mind come on
Come on and dig that funky sensation
Can You feel it, can you feel it my funky sensation
Ain't it good, ain't it funky nowThis funk is like an extra strength pain reliever,
I make you feel better than you ever did beforeFeel real good yeah, sure is funky
You ain't never had no funk like this before
Look at that man over there in the corner honey
He ain't never moved like he's moving now,
It's just the funky sensation feel that funky sensation
