

# Parachute

## Timomatic

There's something 'bout you  
There's something 'bout you  
There's something in your eyes  
Tells me we gonna be alright  
I'm playing with fire  
Playing with fire  
But that can put out  
But I feel so safe right now, baby  
Take me higher than I've been before  
So I can feel the floor  
Before you catch me  
Count me in, baby, 1, 2, 3, 4  
Yes, sweep me of this floor  
I know you'll catch me  
With somebody like you  
Somebody like you  
Baby, I don't need a parachute  
I could fall from the moon  
But if I've got you  
Baby, I don't need a parachute  
With somebody like you  
Somebody like you  
Baby, I don't need a parachute  
I could fall from the moon  
But if I've got you  
Baby, I don't need parachute  
Parachute  
Parachute  
You got me going  
You got me going  
You got me going hard  
Fire blazing in the car  
Burning desire  
Burning desire  
And you can't stop me now  
Turn it on and let's get loud, baby  
Take me higher than I've been before  
So I can feel the floor

Before you catch me  
Count me in, baby, 1, 2, 3, 4  
Yes, sweep me of this floor  
I know you'll catch me  
With somebody like you  
Somebody like you  
Baby, I don't need a parachute  
I could fall from the moon  
But if I've got you  
Baby, I don't need a parachute  
With somebody like you  
Somebody like you  
Baby, I don't need a parachute  
I could fall from the moon  
But if I've got you  
Baby, I don't need parachute  
Parachute  
Parachute  
Take me higher than I've been before  
So I can feel the floor  
Before you catch me  
Count me in, baby, 1, 2, 3, 4  
Yes, sweep me of this floor  
I know you'll catch me  
With somebody like you  
Somebody like you  
Baby, I don't need a parachute  
I could fall from the moon  
But if I've got you  
Baby, I don't need a parachute  
With somebody like you  
Somebody like you  
Baby, I don't need a parachute  
I could fall from the moon  
But if I've got you  
Baby, I don't need parachute  
Parachute
