Cocaine

Emma Dean

I heard a funny thing today, that I'm addicted to Cocaine
But I haven't got the cash, to indulge in those ways
I think I need some time to heal, before I take illicit drugs
maybe some time as a wanderer, 'though the end will surely come
But you know it is days like these, that I just wish I could...
try something newGee baby I miss you like you know
But this love became a chore
Could you try to be a business man
and I'll try to be your whoreBut you know it is days like these, that I just wish I could...
try something new
But you know it is days like these, that I just wish I could...
try something new
