Other Kids

Before You Exit

A million people waking in this city
Running in place but trying to look busy
We're all just dancing up on a wire
Running on bluffs
Kicking up dust
It's never enoughWe say
All the other kids got it better than us
But they're over there thinking that we're living it up
Like oh
All the other kids are no different than us
Just a little confused always looking for love
Like oh
So let's goA million hearts that bend without breaking
Chasing the sun before it starts fading
We're all just dancing up on a wire
Running on bluffs
Kicking up dust
It's never enoughWe say
All the other kids got it better than us
But they're over there thinking that we're living it up
Like oh
All the other kids are no different than us
Just a little confused always looking for love
Like oh
So let's go
