Toughest Times

the smalls

One, two, a one, two, three, four...

Times are rough in toughest times
Needs not drowned in deadline
Times are rough in toughest times; in toughest times.

When times get rough in toughest times
You read the signs you walk the line
Then let you reel in the line in toughest times.

(Chorus)
You can't let it go; you want 'em even harder than you drive
You can take a lot of weight through the water when you're high
You can take a lot of weight through the water when you're high
mmmm you're gonna die!

All the press is running lady
Honey get just tell it straight
She's gonna live to make it day in toughest times.

Where's the wond'ring how we were
When all the printed words were lies
Just such a confident surprise in toughest times.

Chorus

(Extended Chorus)
You can let it go; you wanna feel it harder than you drive
You can take a lot of weight through the water when you're high
And you can take a lot of weight through the water when you're high

If you can let it go, you'll want it even harder than you try
If you can dig a little way through the water when you're high
If you can take a little 'way through the water when you're high
mmmm You're gonna die!
