

Summers Gone

Feeder

Crack and break
Life's big mistake
I'm feelin' it too
There's no way home
The summer's gone
The summer's gone away Back down to earth
A conscience burst
I'm feelin' it too
Just slipped away
The summer's gone
The love has gone
The summer's gone away It's turned to gray
Just burned away
A moment too soon
We've turned to gray
Just like yesterday
It's turned to black and white Cold as stone
No contact known
You're feelin' it too
As thoughts decay
The summer's gone
The color's gone
The summer's gone away It's turned to gray
Just burned away
A moment too soon
We've turned to gray
Just like yesterday
It's turned to black and white Ooo, you're thinkin' back
You're goin' back to places that you've been
Where days could last forever
But you can only dream
Oh, we're goin' back
I'm lookin' back to places that we've seen
Moments that have been
Places we can dream Crash and break
Life's big mistake
You're feelin' it too
Just slipped away
The love has gone

The summer's gone away It's turned to gray

Just burned away

A moment too soon

We've turned to gray

Just like yesterday

Yesterday It's turned to gray

Just burned away

A moment too soon

We've turned to gray

Just like yesterday

Yesterday
