Midnight In Montana

Bearfoot

Well its midnight in Montana
And the moon's getting high
I don't know what I'm doin' Lord
But I know somehow I'll get by

My Uncle sat me down last night and gave me
Some damn good advice
He said son do what ya can with what ya got now
And don't you think twice

It'll be a long hard road
But ya can't get nowhere unless ya go

Well that river in the mountains
It cools my blood on down
Like the river I'm a wandering'
And I don't know where I'll settle down

My Uncle sat me down last night and gave me
Some damn good advice
He said son do what ya can with what ya got now
And don't you think twice

It'll be a long hard road
But ya can't get nowhere unless ya go

Well its daybreak in Montana
And the sun's comin' round
And i don't know where I'm goin'
But I know some day I'll come around

My Uncle sat me down last night and gave me
some damn good advice
He said son do what ya can with what ya got now
And don't you think twice

It'll be a long hard road
But ya can't get nowhere unless ya go

My Uncle sat me down last night and gave me

some damn good advice
He said son do what ya can with what ya got now
And don't you think twice

It'll be a long hard road
But ya can't get nowhere unless ya go
No ya can't get nowhere unless ya go
