

# Generation Doom

## Otep

I can take it, I can take it, I can take it  
Everyone fucking hates me  
Everyone fucking blames me  
Everyone fucking betrays me  
Everyone fucking hates me I don't care what you fucking, say just say it to my face  
Sick of being used by you, so sick of being betrayed  
In the rift, eating shit, pretending it's okay  
War on all sides there's nothing we can do  
We're generation doom  
I don't care what you fucking, say just say it to my face  
Sick of being used by you, so sick of being betrayed  
In the rift, eating shit, pretending it's okay  
War on all sides there's nothing we can do  
We're generation doom I don't care what you fucking say to me, you'll say it anyway  
Sick of being used by you, so sick of being ashamed You hate me  
I fucking hate you too  
You hate me  
You'll blame me for something new  
You hate me  
To betray is what to do  
You hate me  
Well, I fucking hate you too  
(I fucking hate you too) I don't care what you fucking say, just say it to my face  
I ain't fucking backing down, this time I'm not afraid  
I hope you choke on the smoke of the lies you spoke  
That cause like a razor-blade, I can take it, I can take it, I can take it  
Calling down the gods of death, terrifying wrathful death  
To break this cage with righteous rage and set the world ablaze You hate me  
I fucking hate you too  
You hate me  
You'll blame me for something new  
You hate me  
To betray is what to do  
You hate me  
Well, I fucking hate you too  
(I fucking hate you too) I can take it, I can take it  
I can take it, I can take it  
I can take it, I can take it  
I can take it, I can take it

I can take it, I can take it  
I can take it, I can take it You can't look away  
We are your mistake  
Hey, hey, we're generation doom  
You can't look away  
We are your mistake  
Hey, hey, we're generation doom  
Hey, hey, we're generation doom  
Generation doom  
Generation doom  
Doom Let's go  
Witness me  
Furiosa  
Let's go  
Witness me  
Furiosa  
Let's go  
Witness me  
Furiosa  
Let's go  
Witness me  
Furiosa  
Witness me  
I fucking hate you  
I fucking hate you  
I fucking hate you  
I fucking hate you  
I hate you  
I fucking hate you
