

# Still

## Blindside

look at faces bruised and beaten  
the life you took will leave you empty  
the unwanted blood it trickles down  
your eyes can't see the peace you've destroyed  
this life denied unseen homicide  
as you took this gift from God's hands  
don't take it away

souls of children  
stare at you in mirrored anguish  
asking why  
murder - no love found  
murder - without a sound  
murder - in the ground  
murder - God's mercy still abounds
