Reckless

Eva Under Fire

Today today is longer
Than I could ever remember
I could feel it drag me up the stairs
But I couldn't feel you there

Just one move just one step just one touch just one breath I just need you here I just need you here

Chorus:

Stay with me tonight/ tell me that it's alright/ I'll tell you that your fine/ I'm on your side

Vs 2:

Today today and always/ I remember all the small things/ it's been a while since I broke in two/ and all I ever see is you

Just one move just one step just one touch just one breath I just need you here I just need you here

(Chorus)

Bridge:
Take a walk take a walk
Down memory lane
You were gone you were gone just as soon as you came
I just need you here right now
You were gone you were gone ran away with the rain
It was over its over your turning the page I could stay right here right now
But you're
Gone
You're gone
In time
You learn to find your own
