This Time Around

The Euphoria

Thoughts caught, tongue tied
Hold her hand in the streetlight
Oh, where it goes
Count down take my hand
Floating off through the weekend
Oh, time slows
Where it goes
This time around
I'll be more than your conception
Feet to the ground
Feet to the ground
And in my head
I'll see you in my reflection
Feet to the ground
This time around
Take hold
Call my name
Lately things ain't been the same
Oh, lay me down
She smiles
Cards fold
But this feeling won't let go
I need to know
Where it goes
This time around
I'll be more than your conception
Feet to the ground
Feet to the ground
And in my head
I'll see you in my reflection
Feet to the ground
This time around
And everywhere it goes
Seems to lay my inhibition
Far away
And in her arms I know
That the sun is coming up
This time around
I'll be more than your conception

Feet to the ground
Feet to the ground
And in my head
I'll see you in my reflection
Feet to the ground
This time around
