

Bring It On

K-Skills

Welcome everyone to the big show
Jake and Jack in the Dark Carnival
Remove your hats or we'll cut off your heads
Show respect, you's amongst the dead
Don't like bigots and richy boy fucks
Ain't shit changed, bitch check us
Detroit, southwest murderers die
The greatest spectacle under the sky
5 cards came and made they mark
From moon you gone down to platin' park
Fuck you drum sticks, xylophone, cello
I'm a wicked clown, bitch hello
Everybody come jump in our rides
Bring you and your fat ass bitch in side
Wagons, tents are swift as a breeze
Can't nobody get with these
Motherfucker, bring it on
Bring it, bring it, bring it, bring it
Violent J, Shaggy, serial killers with style
Fashion of the 2000s and beyond
Voodoo chicken and magical wands
Dead bigots, face down in the pond
Broken neck with the flick of our wrist
All this playa hate, gettin' me pissed
Fat chick, skinny chick, chicky chick hoe
Swishers, Faygos and Kung Foo blows
If Jake Jeckel drop 88 card
No more chicks just sizzlin' balls
I'll hypnotize ya like a vampire
Bite your neck and set your head on fire
Shoot me with silver bullets, okay
I'll pull 'em out, pawn 'em and get paid
Here try my licorice treat

I know dead folk that chew their feet
Carnival moves in shadow of time
And he's runnin' a little behind
Bitch, bring it on
Bring it, bring it, bring it, bring it
Bring it, bring it, bring it, bring it
