

# Saviour

dredg

It makes me wish I was a banger  
I'd come and retaliate  
I tend to avoid impulsive gangster attitudes  
'Cause they will blind you It's gonna eat you up, it's gonna drag you down  
Gonna get all that you ask for  
Affected many lives, left a void so wide  
Gonna get all that you want Looking for a saviour  
Not one who saves  
Been looking for a saviour  
One to retaliate There's no need for forgiveness  
It's already said and done  
But don't let revenge consume and take hold of you  
'Cause it will blind you It's gonna eat him up, it's gonna drag him down  
He's gonna get all that he asked for  
Affected many lives, left a void so wide  
Gonna get all that he wants Looking for a saviour  
Not one who saves  
Been looking for a saviour  
One to retaliate Open up, open up  
Open up, open up You affected many lives, you left a void so wide  
Gonna get all that you ask for  
It's gonna eat you up, it's gonna drag you down  
You're gonna get all that you want Looking for a saviour  
Not one who saves  
Been looking for a saviour  
One to retaliate Just one to retaliate  
One to retaliate Open up, open up  
Open up, open up
